

KENWORTH GPS

KENWORTH.
The World's Best.

 **HIGH-VALUE • REAL-WORLD • SOLUTIONS**

Whether you're navigating cross country or around town, finding your destination just became a whole lot easier ... and more entertaining.

Kenworth GPS guides you from here to there – optimizing your time, routes, fuel mileage and schedule in ways you never thought possible. It's simple to use and program, provides turn-by-turn GPS guidance throughout the continental U.S. and Canada, and even comes with an MP3 player that can store up to 5,000 of your favorite tunes. • The large in-dash color display offers touch-screen control and a super bright resolution that is comfortable to view even in direct sunlight. Color mapping and route guidance offer two- or three-dimensional "bird's eye" views for easy orientation. • Simply enter an address or specific point of interest. Kenworth GPS automatically displays the route and even recalculates whenever you detour or make additional stops. Your current location is continuously displayed with 12-channel GPS+WASS accuracy (within three meters) along with turn-by-turn guidance instructions to wherever you're going. Audible directions are also available whenever you like. The unit offers enough memory to store up to 1,000 of your favorite destinations – so you can easily navigate back to them at any time. • Kenworth GPS comes standard on T600, T800, W900 and C500 models with Diamond cab interior and is optional on the Splendor cab interior.

State-of-the-Art Kenworth GPS: Beautifully integrated into the dash of your Kenworth, the large, five-inch color screen offers detailed mapping and route guidance in two or three dimensional "bird's eye" representations. A touch screen with easy-to-use menus make programming a walk in the park.

Full-featured MP3 player: Download MP3 files for digital-quality playback through your Kenworth stereo system via the GPS unit's built-in USB port. With 10GB of dedicated MP3 storage, you have enough capacity for up to 5,000 of your favorite songs. The player also offers a graphic equalizer.
